## Still Ridge - A Supernatural Adventure Game full license [Win/Mac]

"It is the night of Halloween and you find yourselves locked in a spooky graveyard after midnight. The place is decorated for the occasion, but awfully quiet, no one seems to be around, yet you can tell that you are not alone... You can feel the presence of a mysterious man, is he the one that locked you in here? And if so, what does he want? Can you figure it out before it's too late? Inspired by the classic graphic novel by Charles Addams, "It's a spooky night in Sleepy Hollow. The snowy graveyard is completely abandoned. Quietly, a man you sense nearby, approaches a tombstone with an inscription "Death is here". The man, who seems to know that no one is around, takes a key from his pocket and unlocks the tomb. As he opens the door, the man becomes visible. A coffin opens - and you realize that you, Agent Fox Mulder and Agent Dana Scully are trapped in the tomb! This must be the other agent who was sent on the case - the one that Mulder had warned about...". The game features more than 13 different rooms, lots of unique puzzles and details. Advertisement Features: Support for VR and modern PCs 9 different scenes with multiple plot lines and puzzles. Controls: For those who use Vive controllers, they support gamepad map view as well. ## **What's new in Still Ridge - A Supernatural Adventure Game:**

**Streetscape Plan, it is time to hand it off to you. With all due respect, I hereby transfer my power - that's right, THE POWER - over this HUGE community enhancement project to you, the ANC 4C Community Relations (CRC) Task Force. You've heard my plan, and I'm sure you'll have different views on which elements to build and where to build them. Your input is paramount. That said, I have attached the full community letter below. You may have seen a more partial draft before. This is THE completed version, while keeping some of the same key points, including a downtown community walkway, public parking garage, and ballpark access. Now, it's your turn to give a direction. So, what should downtown Albuquerque be in 3, 5, 10 years? The biggest hurdle for big projects like this is a general lack of community buy-in. There are several people who love your ideas, such as the catch-and-release program, but there are others who think that some long-discussed "next-step" ideas are being further delayed by this downtown package. Please take 5 minutes to reply. Realize that we won't know until we hear your plan. \* \* \* "The Downtown Streetscape Plan is now opened for input from the general public and all City Council members. As you have all noticed, this is a huge and incredibly complex project designed to address many of our downtown's issues. Our ability to develop wise, forward-thinking measures to address these problems will depend upon your time, candor and thoughtful comments. We believe that this project can meet many of our downtown's needs including: improving access and mobility and addressing parking issues, food and beverage and arts and entertainment needs, protecting historic buildings, attracting businesses to downtown and continuing to make our downtown an attractive and welcoming place for all residents and workers. We have heard that some Council members would prefer to wait several months before setting a timeline for this work. We encourage all the Council members and members of the public to review the entire plan and take as much time as they need. We will then compile a list of all the priorities and concerns and invite individuals to a series of public meetings where we can share the list of priorities and get community input in what we need**
