All files are uploaded by users like you, we can only link to search engines like Google. The files are from our surrounding network. What are the files called..? Just the original files with the name ddwskins_hybrid_XXXX.vjs (where X is a number, like 2 or 0) How to install: Download the new skin (exe,.zip,.vjs). Download ddskins. Use the combocore installer (dolphin.exe). Click Install. (Important, if its on the second click or you hold down the SHIFT button, then you'll have to use the combocore installer. In this case, click install first). Open the combocore icon in your taskbar. If you use explorer (dolphin), find it in the startmenu. In the combocore window click the option 'Update Skin Combocore'. If you don't find the combocore icon in your taskbar, then right click on your dolphin/explorer and press 'Open a file location' Ok. Now start VDJ, and select 'VirtualDJ Database Update' In the combocore window click the option 'Update Skin'. Now go the options tab, and select the option 'Add a file to combocore'. Select the.vjs skin you downloaded. Read and agree with the license agreement, and click 'Add file to combocore'. (in the combocore window) Click Install. Now start VDJ, and select 'VirtualDJ Database Update' Now click OK. You can now go to the options, and go to the tab 'Skin' > 'Skin Pioneer CDJ NEXUS +'. That's it. If you don't want the combocore, and want to do it manually, click here: Virtual DJ Tutorial by DJLASTS for Pioneer CDJ - DJM 900 NXS2 - DJM 900 NXSÂ  You could download on that page the customize manager program called 'VirtualDJ Database Update'. It will automagically update the database. Enjoy!. I hope this helped. A very special thanks to the following people: for the skins: .XDC and Wviten. for the music files: Crazy Giddy. I have not made the music files, and it is not my responsibility if anything happens to them 0cc13bf012
